

Creating the perfect **WEDDING** *Timeline*

While no two weddings are the same, having a well-structured timeline helps everything run smoothly—and gives your celebration the space to breathe and shine. Below is a sample flow we've refined from hundreds of weddings. It's designed to keep your guests engaged, your energy up, and your dance floor packed. Think of it as a blueprint—not a rulebook. We'll customize every moment to match your style, your vibe, and your party goals. Let's make magic.

Let's set the **TONE**

4:00 PM – Guest Arrival & Seating

Music: Chill prelude vibes set the tone.

Guests start arriving, chatting, and finding their seats.

4:30 PM – Ceremony Begins

Music: Custom selections for processional, bridal entrance, and recessional.

We'll handle all the audio details so your vows are heard loud and clear (without feedback or mic fumbles).

5:00 PM – Cocktail Hour

Music: Think upbeat, but relaxed—vintage soul, indie pop, light acoustic.

You're off taking photos while guests mingle and sip. We'll set the perfect vibe to ease into the evening.

6:00 PM – Guests Transition to Reception Space

Time to make some noise 

We'll introduce your wedding party and bring the hype as you two make your entrance as newlyweds—short, sweet, and high energy.

6:15 PM – Grand Entrance

Music: Light instrumental or jazz to guide the transition.

Guests make their way from cocktails to dinner and find their seats.

6:20 PM – First Dance + Parent Dances

Straight from the entrance into the special dances—emotional, smooth, and perfectly timed.

6:45 PM – Toasts & Blessing

Let the speeches roll. We'll make sure everyone is mic'd up and crystal clear.

7:00 PM – Dinner is Served

Music: Romantic, modern dinner vibes (think John Mayer, Adele, Leon Bridges, Frank Sinatra—whatever fits your style).

We'll work with your caterer to cue up any table releases or announcements.

8:15 PM – Dance Floor Opens

Let's GO. We'll read the room, blend genres, and throw in just the right amount of nostalgia + modern bangers to keep guests of all ages dancing.

11:00 PM – Last Song + Send-Off

We'll close the night with intention—a slow dance, a sing-along, or a high-energy anthem (your choice).

Guests leave sweaty, smiling, and already saying “That was the best wedding ever.”

Pro Tips from Your DJ:

- **Keep the DJ near the dance floor.** No tables or barriers between us and the party = better flow.
- **Sweet spot for open dancing?** 2.5–3 hours. It's the perfect window to keep energy high without losing steam.
- **Don't stress the timeline.** We're pros at adjusting in real time while keeping everything smooth.
- **Want to sneak in a private last dance?** We love those.
